Save the Housatonic
Post Office Box 501
Great Barrington, MA 01230

The Lenox Conservation Commission wishes to indicate our total support for the establishment of an "Area of Critical Environmental Concern" for the upper Housatonic River as proposed by the "Save the Housatonic" coalition.

We feel that a strong state voice in the planned Housatonic River PCB removal and subsequent restoration will be a critical factor in returning the Housatonic River to the natural condition with a minimum negative impact to the river itself, the land, the people, their homes and businesses surrounding it.

Sincerely,

Neal Carpenter, Chair
